SECTION 4 FIRST AID MEASURES

EYE EXPOSURE: Immediately flush the eyes with copious amounts of water for at least 15 minutes. Assure flushing under eyelids. A victim may need assistance in keeping their eyelids open. Remove contacts if easily possible. Get immediate, professional care from qualified physician or emergency care facility.

SKIN EXPOSURE: Wash affected area with copious amounts of water for at least 15 minutes. Remove contaminated clothes and shoes if necessary. Seek medical assistance immediately.

INHALATION: Remove victim to fresh air. Closely monitor the victim for signs of respiratory problems, such as difficulty in breathing, coughing, wheezing, or pain. If not breathing administer CPR. If having trouble breathing give oxygen if available. Seek immediate emergency medical assistance.

INGESTION: Do not induce vomiting. Rinse out mouth with water provided person is conscious. Seek immediate medical assistance.

NOTE: Material can form a siloxane polymer on skin, eyes, or in the lungs.

SECTION 5 FIREFIGHTING MEASURES

EXTINGUISHING MEDIA:

Suitable: Foam
Unsuitable: DO NOT USE WATER!

HAZARDOUS COMBUSTION AND DECOMPOSITION PRODUCTS:

Hydrogen chloride gas and silicon oxides

ADVICE FOR FIRE FIGHTERS

Use a NIOSH approved positive pressure self-contained breathing apparatus and full protective clothing.

Do not plunge or aim foam streams directly into a chlorosilane.

UNUSUAL FIRE OR EXPLOSION HAZARDS

DANGER! Fires impinging (direct flame) on the outside surface of cylinders of this product can be very dangerous. Direct flame exposure on the cylinder wall can cause an explosion resulting in severe equipment damage and personnel injury over a large area surrounding the cylinder. If allowable withdraw from area and allow fire to burn.

SECTION 6 ACCIDENTAL RELEASE MEASURES

PERSONNAL PRECAUTIONS

Evacuate personnel to safe area. Wear chemical resistant/ fire-retardant gloves, chemical resistant/flammable resistant suit and boots, and self-contained breathing apparatus if oxygen levels are below 19.5% or unknown. Eliminate all sources of ignition before spill

Hexachlorodisiloxane
Hexachlorodisiloxane cleanup begins. Cover spill with dry lime, soda ash, or sand. Use nonsparking tools. Ventilate area. Place spill residue in a suitable air tight container. Spill residue is water reactive should be placed in tightly sealed metal containers under inert atmosphere for disposal.

ENVIRONMENTAL PRECAUTIONS
Do not allow product enter drains.

METHODS AND MATERIALS
Contain spillage. Dispose of according to all laws and regulations.

SECTION 7 HANDLING AND STORAGE

PERSONNEL PRECAUTIONS
CORROSIVE MOISTURE AND WATER REACTIVE AIR SENSITIVE
Keep in a tightly sealed container (corrosion resistant) under inert atmosphere. Store in a cool, dry, well-ventilated area. Keep away from water, moisture, humidity in atmosphere, alcohols, acids, oxidizers, Lewis bases, (ethers, amines, etc.) Causes severe burns. Do not breathe vapor/fumes. Do not in eyes, on skin, on clothing, shoes. Use with adequate ventilation. Avoid prolonged or repeated exposure. Handle and use in a controlled environment under inert atmosphere. Violent reaction may occur if exposed to moisture in air, water.

CONDITIONS FOR SAFE STORAGE
Handle and store under dry inert gas. AIR SENSITIVE. Keep container tightly sealed.

SECTION 8 EXPOSURE CONTROLS AND PERSONAL PROTECTION

EYE PROTECTION: Approved safety glasses w/side shields, or safety goggles and face shield
SKIN PROTECTION: Wear appropriate chemical resistant gloves, rubber, neoprene
VENTILATION: Chemical fume hood. Handle and use under inert atmosphere.
RESPIRATOR: If adequate ventilation if not available, a respirator should be worn. The use of respirators requires a Respirator Protection Program to be in compliance with 29CFR 1910.34 or NIOSH/MSHA or European Standard EN 149 approved respirator.
ADDITIONAL PROTECTION: DANGER! CORROSIVE Causes Burns. Water/Moisture reactive. Avoid contact with skin, eyes, clothing. shoes. Do not inhale vapors. Use with adequate ventilation. Use in a controlled environment. Avoid contact with WATER, MOISTURE, Oxidizing agents, alcohols, acids, friction, heat, flames and sparks. Use adequate protection to avoid contact with skin, clothing, shoes. (Apron, lab coat, arm sleevelets). Eyewash and safety shower in area capable of sustained flushing. Do not eat, drink or smoke in area.
